

## The best support for AV & IT hardware

### The company

Neomounts. It's all in the name. We continuously strive to evolve in everything we do and the products we offer. Neomounts by Newstar offers a comprehensive, up-to-date assortment of more than 500 high quality mounting products, following the latest trends in the AV and IT market. Our sole mission is that you experience the best viewing position, optimal working position and maximum comfort while using your device.

### Neomounts Select

The premium product range Neomounts Select consists of a vast assortment of select products designed with an eye for every detail and using the highest quality materials. Neomounts Select offers clever high-end mounting solutions which can be used in the office, retail, education, government, healthcare, hospitality and home use.

### Markets

Founded in 1996 and active in more than 30 countries worldwide Neomounts products are available through an extensive network of resellers and distributors. We offer high quality products, smart design, ease of installation and value for money. A 5-year warranty is given on all products as standard. Our promise is to give you the best support possible, for your AV or IT device and for your business. Find your local Neomounts distributor or reseller on [www.neomounts.com](http://www.neomounts.com) or send an e-mail to [sales@neomounts.com](mailto:sales@neomounts.com).

### Service

All products are made of high-quality materials, designed for optimum ease of installation and all have a standard 5 year warranty. Additionally, Neomounts by Newstar invests in the best (sales) support possible for its resellers and distribution partners.

## Product range 2022

## Smart office solutions

Office furnishing is not only about design and efficiency, but also about ease of use and ergonomics. Neomounts Select offers an extensive range of clever office solutions, that make it easy to create a healthy workplace. Due to the wide range of monitor supports, there is always a suitable solution available for every workplace. The supports offer an ergonomic solution and additionally ensure a clean workplace, without wires and cables. Another smart office solution is the motorised, mobile NM-HUB stand, that is specifically designed for the Microsoft Surface Hub 2S(X). The stand can be lowered for team sessions and video conferencing purposes or raised for huddle meetings and is a great addition for any office.

## Modern supports

The NM-PLUS desk mounts are one of a kind; they are specifically designed to support ultra-wide screens. They feature a strengthened head for ultra-wide screens and designed to support a higher total capacity up to 49" and a maximum weight of 18 kg. Neomounts special tilt, rotate and swivel technology allows the NM-PLUS mounts to change to any viewing angle for optimal use of the capabilities of the screen. The mounts are easily adjustable in height, using a gas spring. The NM-PLUS desk mounts are ideal for use in the office and at home.

## From the top

Ceiling mounts are a great choice when wall or floor mounting is not an option. The clever tilt and rotation technology allows the mount to change to any viewing angle to fully benefit from the capabilities of the flat screen. The mount features a cable management system to hide wires and cables within the column to ensure a clean and tidy appearance.

## Mobile flexibility

Neomounts Select offers various (mobile) floor stands to support your presentation devices. They are perfect to use in classrooms, boardrooms, presentation spaces and public lobbies. The motorized stands are adjustable in height and allow placement of large size flat screens at the desired height. The stands can be easily used in various spaces, due to the solid caster wheels.

## Ergonomics

By utilizing a monitor mount, optimum use can be made of the monitor, as the arm(s) can easily be adjusted in height and depth, according to the user's needs. In addition, various arms support tilting, swiveling and rotating of the computer screen. In this way the ideal ergonomic working posture can be created, which reduces the risk of neck and back complaints. All supports include both a desk clamp and grommet, for easy installation.

## Clean desk

In addition to monitor supports, the Neomounts Select product range also includes various solutions for PC and thin clients, allowing you to mount a desktop computer or thin client under a desk or on a wall, which not only contributes to a clean office space, but also increases the computers lifetime.

## Ultimate viewing flexibility

The Neomounts Select flat screen mounts offer a great solution for modern placement of your flat screen TV at home or in the office. The assortment includes wall and ceiling mounts and (mobile) floor stands. The available mount accessories provide many more options to tailor each mount to your specific needs.

## Comfortable viewing

Establish the ultimate viewing experience by installing your TV on the wall of your home or office, creating a clean and modern look. Various mounts feature the clever swivel and/or tilt technology, that allows you to change to the desired viewing angle and to fully benefit from the capabilities of the flat screen.

## Projections

Neomounts Select projector ceiling mounts are a great choice for an optimal viewing experience. The versatile tilt, rotate and/or swivel technology allows the mount to change to any viewing angle to fully benefit from the capabilities of the projector.

With the smart cable management system, cables can be hidden within the column to assure a nice and tidy appearance.

Projector mounts are ideal for the use in offices, schools, universities, hospitals and at home.
