The UC-B70-A-Z-I Crestron Flex tabletop conferencing system provides a medium to large room video conference solution for use with Zoom Rooms® software. It simplifies the communications and collaboration needs with fewer components and maximum efficiency. The UC-B70-A-Z-I features a 10 in. tabletop touch screen, Crestron Videobar 70 with intelligent high-definition video and audio, a PoE injector, and cables. The UC-B70-A-Z-I also supports up to two video displays¹ (not included).

The UC-B70-A-Z-I conferencing solution delivers a hassle-free setup and installation, better space utilization, a cleaner and visually appealing environment, easy collaboration and content sharing, and scalable deployment.

High-Definition Video Conferencing with Impressive Audio

The powerful and elegant all-in-one (AIO) Crestron Videobar 70 provides a convenient and compact conferencing solution for medium to large-sized meeting rooms. It comprises:

- A quad-camera setup that captures the full room in 4K, automatically tracks and frames the presenter or everyone in the room based on its configuration, and enhances the video content using AI.
- 10-watt dual speakers produce full, rich, and natural-sounding audio. Additional digital signal processing with AEC and noise reduction assures optimal sound quality for an immersive experience.
- Integrated 24-microphone array to capture voices throughout the room using adaptive beamforming technology. AI noise cancellation is also provided to ensure crystal-clear communication with exceptional audio fidelity and pickup.
- Android™ OS running on the QCS8250 chipset that ensures a smooth and reliable conferencing experience every time.

Native Zoom Rooms® Software Experience

The UC-B70-A-Z-I system features Zoom Rooms conferencing software that enables audio and video connectivity for easy collaboration and content sharing.

Android OS-Based Conferencing System

As an Android OS-based conferencing system, the UC-B70-A-Z-I provides a consistent, secure Zoom Rooms® experience. The system's tabletop controller and Videobar 70 both run on Android OS to ensure compliance with enterprise requirements.

Intuitive User Interface

With a large 10 in. (254 mm) capacitive touch screen display, the Crestron® tabletop touch screen ([TS-1070](#)) provides superior conferencing control in meeting rooms, huddle spaces, and executive offices. The touch screen also offers optional control of room lighting, shades, thermostats, and other equipment.²

Simplified Deployment

The AIO Crestron Videobar 70 comes with one ready-to-mount wall bracket allowing the video bar to install cleanly beneath the display – connect the displays and touch screen and mount.

Enterprise-Grade Security

Crestron Flex is an enterprise-grade solution that is ideally equipped for mass deployment throughout any sized corporate, university, medical, military, or government facility.
