

USB-EXT-3 KIT

USB 3.2 Extender over CAT 6a/7 Cable, Local and Remote

- *Point-to-point connectivity for USB signal extension over CAT6a/CAT7 up to 330 ft (100 m)*
- *USB 3.2 Gen 1 data rate up to 5 Gbps*
- *Support of USB 3.2, 2.0, and 1.1 signals simultaneously*
- *Support of all USB transfer types: control, interrupt, isochronous (ISO), and bulk*
- *Enhanced support for USB cameras and video capture devices using ISO transport*
- *USB-EXT-3-LOCAL extender for connection to USB host*
- *USB-EXT-3-REMOTE extender for connection to up to four USB devices at one location*
- *Gigabit Ethernet pass-through port*
- *Plug-and-play functionality without the need for additional drivers*
- *Compatibility with the Windows®, macOS®, Linux®, and Chrome OS™ operating systems*
- *Freestanding or surface mountable (optional mounting kit included)*
- *24 VDC power pack included for each extender*

The Crestron USB-EXT-3 KIT offers a highly versatile USB 3.2 extender to support USB 3.2 peripherals such as UC soundbars and cameras. The maximum length of a standard 3.2 cable is limited to 6 ft (1.8 m), which is not adequate for most integrated solutions used in conference rooms and other meeting spaces. The USB-EXT-3 KIT provides a solution for the simultaneous extension of all USB signals up to 330 ft (100 m) over CAT 6a/7 cable at high speed up to 5 Gbps.¹

Support of any type of USB signal places special demands on USB transport technology. The USB-EXT-3 KIT fully supports USB 3.2 isochronous (ISO) transport, which offers enhanced support for UC cameras and video capture devices. USB traffic is guaranteed a certain percentage of all USB bandwidth. Other connected USB devices, such as bulk storage devices, will not decrease the performance of the ISO stream, resulting in high-quality video performance.

The Crestron USB-EXT-3 KIT consists of the USB-EXT-3-LOCAL and USB-EXT-3-REMOTE extenders, which are used with each other in point-to-point USB extender applications:

- The USB-EXT-3-LOCAL provides connectivity for a single USB host such as a computer. The extender supports plug-and-play functionality with a USB host running Windows®, macOS®, Linux®, and Chrome OS™ operating systems. No additional driver installation is required.²
- The USB-EXT-3-REMOTE provides connectivity for up to four USB Type-A devices such as USB cameras and video capture devices at one location.² The extender is expandable to support up to 30 USB devices with the connection of up to three USB hubs (not included).

A Gigabit Ethernet pass-through port is included on each extender for connection to a network or network-enabled device.

USB-EXT-3 KIT

USB 3.2 Extender over CAT 6a/7 Cable, Local and Remote

Specifications

Communications

Link	Proprietary link for point-to-point connection between the USB-EXT-3-LOCAL and USB-EXT-3 REMOTE
USB	Speeds: USB 3.2 Gen 1 up to 5 Gbps; USB 2.0 up to 480 Mbps; USB 1.1 up to 12 Mbps Maximum Number of Devices: 30 devices using 1 USB port on USB-EXT-3-REMOTE and maximum of 3 hubs ²
Ethernet	100BASE-TX/1000BASE-T for LAN pass-through

Connectors – USB-EXT-3-LOCAL

24V 1A	DC power connector; 24 VDC power input ³
USB	(1) USB Type-B connector, female; USB 3.2 Gen 1 host port for connection to computer, media server, game console, or other USB host; ² Backward compatibility with USB 2.0 and USB 1.1
Link	(1) 8-pin RJ-45 connector, female; Connects directly to Link port on USB-EXT-3-REMOTE ⁴ Up to 330 ft (100 m) over CAT6a/7 cable ¹
LAN	(1) 8-pin RJ-45 connector, female; 100BASE-TX/1000BASE-T for pass-through connection to Ethernet network or network-enabled device; Up to 330 ft (100 m) over CAT5e or higher cable
Config	Reserved for factory use only

Connectors – USB-EXT-3-REMOTE

24V 2.71A	DC power connector; 24 VDC power input ³
USB	(4) USB Type-A connector, female; USB 3.2 Gen 1 device ports for connection to USB cameras, video capture devices, flash drives, keyboards, mice, hubs, or other USB devices; ² Maximum number of USB hubs supported: 3 Backward compatibility with USB 2.0 and USB 1.1; Available Power: 1.2A (6W) per USB port

Link	(1) 8-pin RJ-45 connector, female; Connects directly to Link port on USB-EXT-3-LOCAL ⁴ Up to 330 ft (100 m) over CAT6a/7 cable ¹
LAN	(1) 8-pin RJ-45 connector, female; 100BASE-TX/1000BASE-T for pass-through connection to Ethernet network or network-enabled device; Up to 330 ft (100 m) over CAT5e or higher cable
Config	Reserved for factory use only

Controls and Indicators

Power	(1) LED. Green indicates that power is being supplied from the included power pack.
Mode	Reserved for factory use only
Status	(1) LED. Solid green indicates that the system is functioning normally. Flashing green indicates that the system is booting or may also indicate a temperature warning in unison with the Link, USB 2, and USB 3 LEDs.
Link	(1) LED. Green indicates that a link has been established between the local and remote extenders.
USB 2	(1) LED. Solid green indicates that a USB 2 connection is detected when a host device is connected to the USB port on the USB-EXT-3-LOCAL. Flashing green indicates that the USB 2 connection has been suspended or is in sleep mode.
USB 3	(1) LED. Solid green indicates that a USB 3 connection is detected when a host device is connected to the USB port on the USB-EXT-3-LOCAL. Flashing green indicates that the USB 3 connection has been suspended or is in sleep mode.
LAN	(2) LEDs on RJ-45 connector. Solid green indicates that a link has been established between the extender and the network or network device. Flashing green indicates Ethernet activity.

USB-EXT-3 KIT

USB 3.2 Extender over CAT 6a/7 Cable, Local and Remote

Power – USB-EXT-3-LOCAL

Power Pack (included)	Input: 100-240 VAC, 50/60 Hz Output: 1A @ 24 VDC ³
Power Consumption	24W

Power – USB-EXT-3-REMOTE

Power Pack (included)	Input: 100-240 VAC, 50/60 Hz Output: 2.71A @ 24 VDC ³
Power Consumption	41W (24W allocated to 4 USB devices)

Environmental

Temperature	Operating: 32° to 122°F (0° to 50°C) Storage: -4° to 158°F (-20° to 70°C)
Humidity	Operating: 20% to 80% RH (non-condensing) Storage: 10% to 90% RH (non-condensing)
Heat Dissipation	USB-EXT-3-LOCAL: 81.8 BTU/hr USB-EXT-3-REMOTE: 139.8 BTU/hr
Acoustic Noise	None (fanless)

Enclosure

Chassis	Black anodized aluminum
Mounting	Freestanding or surface mountable (optional mounting kit included)

Dimensions

Height	1.34 in. (34 mm)
Width	9.15 in. (233 mm)
Depth	5.68 in. (144 mm)

Weight

USB-EXT-3-LOCAL:	2.23 lb (1.01 kg)
USB-EXT-3-REMOTE:	2.26 lb (1.03 kg)

Compliance

Regulatory Model	USB-EXT-3
IC, CE, FCC Part 15 Class B digital device	

Model

USB-EXT-3 KIT
USB 3.2 Extender over CAT 6a/7 Cable, Local and Remote

Notes:

1. For the Link connection between the USB-EXT-3-LOCAL and USB-EXT-3-REMOTE extenders, use CAT6a/7 UTP (unshielded twisted pair), FTP (foiled twisted pair), or STP (shielded twisted pair) as determined by the specific installation requirements. The maximum cable length is 330 ft (100 m).

If using on-premise cabling, up to 33 ft (10 m) of CAT6a/7 patch cord can be used for each extender, ensuring that the total cable length does not exceed 330 ft (100 m). The remaining 264 ft (80 m) distance must consist of solid-core premise cabling.

2. The USB extenders are engineered to deliver maximum compatibility with the widest possible range of USB hosts and devices. Crestron does not guarantee that all USB hosts or devices are compatible with the USB extenders. Certain USB hosts and devices may require additional driver installation if not directly supported by the operating system of the computer.
3. Each extender requires connection to a power pack in order to be powered on. The USB-EXT-3-LOCAL must be connected to the included 24 VDC 1A power pack. The USB-EXT-3-REMOTE must be connected to the included 24 VDC 2.71A power pack.
4. The Link ports of the USB-EXT-3-LOCAL and the USB-EXT-3-REMOTE must be connected to each other. Do not connect the Link ports to any other device or to a network.

This product may be purchased from select authorized Crestron dealers and distributors. To find a dealer or distributor, please contact the Crestron sales representative for your area. A list of sales representatives is available online at www.crestron.com/How-To-Buy/Find-a-Representative or contact us for additional information by visiting www.crestron.com/contact/our-locations for your local contact.

This product is covered under the Crestron standard limited warranty. Refer to www.crestron.com/warranty for full details.
