PowerRING

UNIVERSAL WIRELESS CHARGING RECEIVER

miniBatt PowerRING is the answer to universal charging compatibility. Although a wide variety of smartphones and other devices are optimized for Qi charging technologies, some do not have the capacity.

miniBatt PowerRING is an easy-to-use dual wireless receiver ring to charge any device with a micro 5p or Lightning connector. Simply plug your device into the appropriate PowerRING connector and place it on your chosen wireless charging station surface.

In accordance with to Qi Standard 1.2 and one-to-one induction charging, our miniBatt PowerRING universal receiver even comes with a convenient LED status display to let you know when your device is ready to go.
