# Full Featured Flat Panel Cart

FOR 32" TO 75" DISPLAYS

The SR575M SmartMount® Full Featured Flat Panel Cart takes adjustability to the next level by making everyday usage more enjoyable. Height adjustment of the display and component shelf is a simple readjustment and can be done without removing the display. Non-marring bumpers on each corner of the cart make it easy to move from room-to-room, while the UL® certification ensures that it can be done safely.

- Includes a three-piece base and pre-assembled adaptor plate to reduce packaging waste and carton size
- Three-piece base also provides rigidity, stability, and quick assembly
- Integrated cable management protects, contains and conceals cables for a clean, professional installation
- Textured black powder coat finish helps to hide finger prints and dust
- Component shelf can be positioned anywhere along the column by simply lifting and repositioning
- Universal display adaptor fits mounting patterns from 200 x 200mm to 600 x 400mm and allows mounting in landscape or portrait orientation
- Cart includes (4) plastic base pads for instances when casters are not needed

Cable management allows cables to enter or exit anywhere along the column.

Corner bumpers protect walls and doorways from damage.
